

3 Steps to follow, In order to request materials without a watermark

1 Recognize from which Organization the material is

Each material belongs to a specific organization, each has its own watermark and/ or an accompanying description.

2

Copy the link of the desired material

Copy the link of the desired material. In case you're requesting more than one item, you'll need to do this for each item.

OR

Share:

3

Send an email to the entity

Compose an email addressed to the organization to which the material belongs. If your selected items are from different organizations, you'll need to approach each one separately. In this email, you should include the link(s) to the material(s) and explain the intended use. You can find the email on the material itself, either in the watermark or written in its accompanying description.
